

**CHANGE NOTIFICATION  
JULY 2009**

**CHANGE IN HEAT-SHRINK SEALS**

Dear Valued Customer,

Due to supply chain issues, our current heat-shrink seal supplier has not been able to keep up with our increasing volume demands. As a result, our blue cellgro® quality seals that are synonymous with Mediatech's bottle packaging will be changing. The blue heat-shrink seals will permanently be replaced with transparent heat-shrink seals with implementation set to occur in August 2009. Product quality will remain unaffected and all future Mediatech products will utilize these seals.

Mediatech is committed to providing the highest quality products and will continue to strive to meet our customers' expectations. Thank you for your continued interest and support of Mediatech and our cellgro® brand product lines.
